

## 2019 ROSÉ California

The Simple Life Rosé is distinct and intentionally made in an understated style.

### WINEMAKING

The grapes were picked in the evening to keep minimal skin contact and preserve the delicate pink hue. As grapes were received at the winery they were immediately pressed and fermented in stainless steel tanks at cold temperatures. The wine showcases the purity of premier California grapes transformed into a delicate French style Rosé wine.

### TASTING NOTES

This Rosé opens with vibrantly floral aroma showcased in an alluring pale pink color. Aromas of tart strawberry and fresh cut garden flowers lead to a fresh and bright palate with layers of tart fruit, citrus and floral flavors. This Simple Life Rosé will pair well with a wide array of foods or is delightful to sip on its own.

### THE SIMPLE LIFE PHILOSOPHY

We treasure this small town, California life and its simple pleasures—like walking downtown and shopping at family-owned grocery stores, cooking with fresh ingredients from local farms, and drinking wine made by our family and friends who have been here for generations. We created these wines for the people that enjoy the simple things in life: friends, family and a glass of wine.
